EDUCATION

University of Nevada, Las Vegas
Bachelor of Science, Computer Science

Las Vegas, Nevada
Expected Graduation – Fall 2025

PROJECTS • athertonh.com/portfolio

Regional | Tableau Dashboard

Jul 2025

Solo Company Project • Tableau, Power BI, T-SQL

- Designed and developed an interactive regional dashboard in Tableau for high-level analysis of patron data
- Utilized geospatial mapping to visualize patron presence and performance across key market regions
- Enabled dynamic filtering by city, market segment, host type, and individual patron attributes

Rates | Tableau Dashboard

Jun 2025

Solo Company Project • Tableau, Power BI, T-SQL

- Built a calendar-based Tableau dashboard to visualize suite rates across multiple property segments
- Enabled interactive pricing tools with filters for suite type, tower, rate type, and date range
- Integrated calculations for base charges, resort fees, taxes, and total cost
- Streamlined rate visibility and pricing insights to support operational planning and revenue management
- Calculated variance of key weather attributes, measuring data dispersion and variability

IngrediScan | Android Nutrition Tracker App

Jan 2025 – May 2025

Team Project • Kotlin, Jetpack Compose, Firebase, APIs

- Collaborated with a team of 10 using GitHub for version control, code reviews, and issue tracking to ensure consistent and efficient development workflows
- Designed and developed a mobile application that helps users make healthier food choices by scanning barcodes to instantly retrieve and display nutritional information, including calories, macros, and additives
- Implemented the front-end of the Profile page using Jetpack Compose and XML, ensuring responsive layout and smooth user experience
- Integrated back-end functionality for secure password changes and user logout via Firebase Authentication

WORK EXPERIENCE

The Venetian Resort Las Vegas

Las Vegas, NV

Enterprise Analyst

May 2025 – August 2025

- Migrated dashboards from Power BI to Tableau to streamline reporting within a unified analytics ecosystem
- Utilized SQL to query and analyze large datasets, ensuring data accuracy and integrity across reports
- Created and maintained weekly executive reports to deliver timely insights to stakeholders with precision and consistency
- Wrote standard operating procedures (SOPs) and documented workflows while shadowing Cognos experts to enhance team knowledge
- Adhered to company-wide dashboard design guidelines to maintain visual consistency and professionalism across reports
- Gained deep insight into casino operations and enterprise analytics through hands-on project work and interdepartmental collaboration

TECHNICAL SKILLS

- Programming Languages: C++, C, C#, Python, Java, Kotlin, HTML, CSS, SQL, R
- Framework and Tools: Tableau, Power BI, Cognos, Microsoft, SQL Server Management Studio, Jetpack Compose, Firebase, Git/GitHub, Android Studio, VS Code, CLion, PyCharm
- Platform/OS: Windows, Linux
- Certifications: Google Data Analytics (2024)
